

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 9, line 7, "control memory" has been changed to --control program--;

Line 9, "primitive memory" has been changed to --primitive program--.

*cue* In claim 10, lines 4 and 5, before "memory", --control program-- has been inserted. *first occurrence*

*5.31.06* In claim 11, line 4, before "memory", --control program-- has been inserted. *first occurrence*

In claim 12, line 5, before "memory", --control program-- has been inserted.

In claim 13, line 3, before "memory", --control program-- has been inserted.

The above changes are made in order to provide proper antecedent basis.

2. The following is an examiner's statement of reasons for allowance: the prior art fails to show or fairly suggest a digital TV receiver having the combinations as claimed, including a tuner, a decoder, an output device, a memory for memorizing at least a primitive program and a control program, a main controller for controlling the digital TV receiver corresponding to the control program, and a connection device to which an external memory apparatus memorizing a control program can be connected, wherein the connection device includes an IDE connector to which an IDE cable connected to the external memory apparatus is connected, when the external memory apparatus is connected to the connection device, the main controller accesses the external memory apparatus for reading out the control program, and writes the readout control
